

PowerPACS DR ONE®

VETinfo SYSTEMS* has partnered with SimonDR to offer a cost-effective, complete system to provide all of your digital imaging and PACS solutions.

ONE source for all of your digital needs.

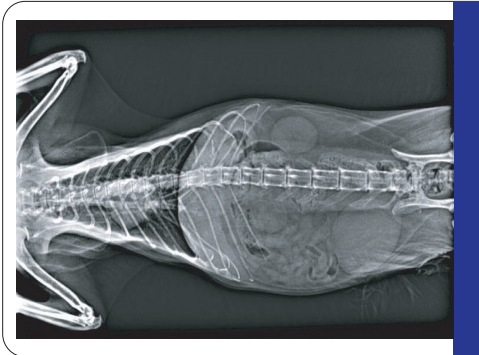

VETinfo SYSTEMS introduces an integrated PowerPACS and DR solution for the veterinary digital imaging industry. This combination, which offers a premium x-ray system and enables practices to instantly acquire and view x-ray images, is powered by SimonDR technology and VETinfo SYSTEMS' dynamic PACS. Veterinarians now have a premium DR offering available to them at an affordable price.

PowerPACS DR ONE®

PowerPACS DR ONE® ADVANTAGES AND FEATURES:

- Designed and implemented for the veterinary industry
- Complete out-of-the-box solution
- Seamless workflow to acquire, view, archive, or burn CD/DVD
- Veterinary-specific image processing algorithms
- Significant cost savings from filmless operation
- Maintain a minimum of 50,000 DR studies online
- Able to acquire and display all DICOM compatible images, including dental and cine loop ultrasound
- Can interface with most Practice Management (PM) systems
- 24/7 customer support from live service personnel

DR PRODUCT DETAILS:

- Product is available in Standard (10MP) or Premium (18MP) resolutions
- SimonDR DRV high-resolution CCD-based direct digital x-ray system
- Includes Integrated DR Whitecap software generator control
- 32kw - 25ma - 500ma high-frequency standard power
- Higher ma values mean faster exposure times
- 200,000 heat-unit tube with a standard fractional focal spot (.6mm / 1.5mm)
- 60 inch four-way floating table top with 30 inches of longitudinal float to accommodate larger animals
- Includes "Uro Track" for easy liquid containment
- Patient tie-downs
- Recessed foot-control operated floating table-top with premium fail-safe brakes
- 650 lb. patient capacity tabletop
- Laser guided collimator for ultimate accuracy
- Pre-set anatomical exposure factors capable

STANDARD WARRANTY:

- 5 year receptor and standard 5 year limited x-ray generation warranty
- 1 year on tubestand

OPTIONS INCLUDE:

- Stored energy allows you to use high-frequency where incoming power is limited
- Shorter float for very small areas
- Tubestand-mounted preview monitor

About VETinfo SYSTEMS

VETinfo SYSTEMS is a division of RADinfo SYSTEMS, focused solely on the veterinary and equine markets. VETinfo SYSTEMS has developed dynamic digital software solutions to enhance patient care in the veterinary industry, forging the future of how veterinarians will use digital imaging to advance their methods of diagnosis and treatment.

Digital imaging technology has transformed the veterinary industry, enabling veterinarians and veterinary radiologists to provide faster, more accurate diagnoses than ever before. VETinfo SYSTEMS brings a unique outlook to digital imaging, launching a full range of Windows-based, DICOM-compliant software that combines images with associated patient/study data and transmits them to the veterinarian's workstation, improving the delivery of both routine and emergency patient care. VETinfo SYSTEMS offers DICOM solutions that will integrate its products with veterinary practice management systems and multiple modalities, thereby eliminating the need for multiple software programs and databases. These easy-to-use software systems improve workflow and efficiency, adding value to each customer's practice.
